SIGMA WATERWORKS

RMB101710OVL
OVAL METER BOX

RMB101710OVL
OVAL METER BOX

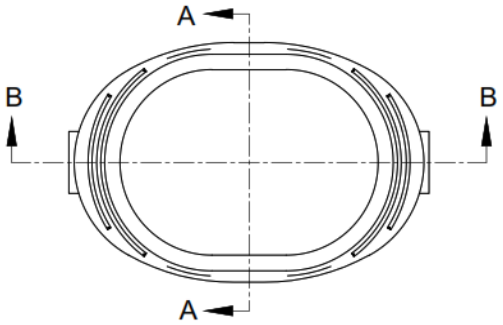

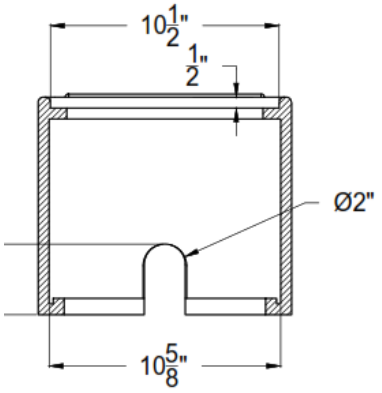

Features	
Molding	Molded in a single operation
Pipe Entries	Two preformed pipe entry areas, at the center of each end (short side)
Wall	1/2" laminated dual wall
Interior	Optional white interior coating

Manufacturing Process

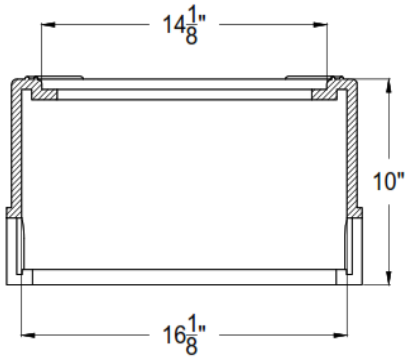

- SIGMA Waterworks Oval Meter Boxes are produced using polyethylene regrind and virgin resins in a series of laminated walls.
- The outer wall is laminated to the interior wall providing greater side load-bearing capacity. When the two walls are laminated together the molecular structure (fibers) from each wall are crossed, creating a dual layer of much greater strength and wall thickness.
- Wall thickness shall be 1/2" such that when buried, it will support an incidental traffic load with an appropriate traffic rated lid.
